# ABOUT US

At Parallel Wireless, we believe that **software** has the power to unleash amazing **opportunities for the world**. We **disrupt** the ways **wireless networks** are built and operated. We **reimagine** the ways to make **hardware, software** and the **cloud** work as one to reimagine the **deployment economics**. Our **All-G O-RAN** software platform forms an **open, secure and intelligent** RAN architecture to deliver **wireless connectivity**, so all people can be connected whenever, wherever, and however they choose. We are engaged with **over 50 global MNOs** and have been recognized with over **74 industry awards**. At the core of what we do is our **team of Reimagers** who value **innovation, collaboration, openness** and **customer success**. Reimagine your network today
